

**We are Here to Serve Our Community!**

To All of Our Patients.... Past, Present and Those Whom We Have yet to Meet,

I hope this letter finds you and your family in good health.

As we all know, this past year has been very difficult for everyone. The stress, uncertainty, and fears associated with COVID-19 have presented all of us with unprecedented challenges.

Oral Surgery was faced with the additional stresses of being a high exposure-risk profession, necessitating the implementation of many office changes to ensure the safety of our staff and our patients.

We are and will continue to be dedicated to providing the highest quality of care in an atmosphere that is comfortable and safe for our patients, with attention towards sound infection control practices.

We are committed to maintaining this standard, and have applied and maintained important infection control and distancing protocols combined with engineering improvements in air flow, air filtration, and aerosol containment to ensure the safety of everyone at our practice.

All of us at Pavone OMS are committed to safety. We are confident we can continue to deliver excellent oral surgery care in this environment and provide every patient we see with a personal and comfortable experience.

We are grateful for all of the support, trust, and confidence you have shown during these unprecedented times.

Sincerely,

Anthony G. Pavone, DDS, MD, FACS
